

# **HY-FPC 1010 NTAG 213**

#### **Product introduction**

RFIDHY Technology has posted Flexible NFC tags is a high temperature resistant flexible printed circuit (FPC) RFID inlay. FPC tag is a flexible rfid tag, which can also be easily applied to curved surfaces.

Its high temperature resistance, flexible, etc performance is widely used for smart wearable equipment, luxury item tracking management, industrial laundry purpose with high temperature resistant requestment.

#### **Applications**

## **Product introduction**

Operational F		13.56 MHz
Interface Prot	ocol	ISO14443A
Chip Type		Ntag 213
Memory Conf	iguration	144Byte
Data Retentio	n	10 Years
Write Cycle E		100,000 cycles

## **Products Characteristics**

	Label size	10x10mm
	Reading Range	35mm
	Material	FPC
	Packaging	500pcs/bag
	Application	Labels are dustproof, waterproof and vi

## **Environmental Specifications**

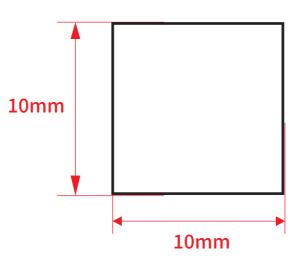

Operating Temperature	-25 to +85 °C
Storage Temperature	-25 to +65 °C

## Personalization

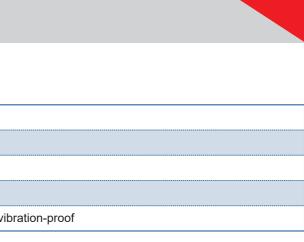

1 Customer specific encoding

2 Customised printing of logo, text, barcode etc
